

About IFIP NTMS'2019

NTMS'2019 is the 10th IFIP International Conference on New Technologies, Mobility and Security that will be held in **Canary Islands, Spain from 24 to 26 June 2019**. NTMS'2019 conference is technically co-sponsored by **IEEE, IEEE COMSOC & IFIP TC6.2 WG**. NTMS'2019 aims at fostering advances in the areas of New Technologies, Wireless Networks, Mobile Computing, Ad hoc and Ambient Networks, QoS, Network Security and E-commerce, to mention a few, and provides a dynamic forum for researchers, students and professionals to present their state-of-the-art research and development in these interesting areas. **Accepted and presented papers will be published in the conference proceedings and submitted to IEEE Xplore®, IFIP Digital Library as well as other Abstracting and Indexing (A&I) databases. In addition, authors of accepted papers will be invited to submit extended versions of their manuscripts in the following international journals: Ad Hoc Networks, Computer Communications, MDPI SCI Sensor Networks Journal & EAI Endorsed Transactions on Cloud Systems.**

The event will be combined with tutorial sessions and workshops. Tutorials will precede the main program, aiming at the dissemination of mature knowledge and technology advances in the field. Two or more Workshops will immediately follow the main conference, offering the opportunity for a more focused exchange of ideas and presentation of ongoing research relevant to following tracks:

Track 1: New Technologies & Services	Track 2: Mobility & Wireless networks	Track 3: Security
<ul style="list-style-type: none"> - New generation Internet, Post IP and IPv6 - NGN architectures, protocols and services management and delivery - Web 2.0 applications and IMS (IP Multimedia Subsystems) - Next generation systems & Service-oriented techniques - IPTV and content distribution networks - User-centric networking and services - multimedia indexing and retrieval - Personalized access to media systems - Context/content-aware services - Smart Cities, Homes and E-Health - Web Commerce & Services, Data models, Web searching & querying - Web Mining & Web Semantics - Web service-based Grid computing and P2P computing - Advanced identification techniques (Biometrics, RFID, etc.) - Virtualization technologies for grid and parallel computing. - Interactive media, voice and video, games, immersive applications 	<ul style="list-style-type: none"> - Beyond 3G, 4G, LTE, and WiMAX Networks - Wireless Local Area Networks - Wireless Personal Area Networks - Wireless Ad Hoc and Mesh Networks - Wireless Vehicular Networks - Cognitive Radio Networks - Satellite Networks - Self-organizing and Re-Configurable Wireless Networks - Energy Efficient Wireless Sensor Network Solutions - Wireless MAC Protocols - Scheduling Techniques for Wireless Networks - Wireless QoS Routing Algorithms - Radio Resource Allocation and Management - Cross-layer Design and Optimization in Wireless Networks - Clustering, Topology Control, Coverage and Connectivity - Cooperation and Relaying in Wireless Networks - Analysis, Simulation and Performance Evaluation - Integration of Heterogeneous Mobile, Wireless and Wire-line Radio Access Networks 	<ul style="list-style-type: none"> - Security engineering. Methodologies, formalisms, modeling, tools, code instrumentation - Cryptography. Algorithms, protocols, attacks - Security in distributed systems. - Cryptographic Hardware and Embedded Systems. - Light-weight cryptography. - Information Hiding. - Steganography - Privacy and Anonymity. - Security assurance. Evaluation, testing, formal proofs, certification. - Quantum Cryptography and QKD. - Trusted computing. Analyses and attacks, practical applications... - Surveillance and monitoring. Intrusion detection, monitoring techniques, architectures, ... - Infrastructure. Middleware, proxies, PKIs, AAAs, SSO, credentials... - Social and psychological aspects of security. User-centered security evaluation, perception of security and threats... - Security and usability

All related scientific topics can be found on the conference web site: www.ntms-conf.org

Important dates

Papers submission

Submission Deadline: **February 20, 2019**
 Paper Notification date: April 20, 2019
 Camera-Ready: May 10, 2019

Workshops proposals

Submission/Proposal deadline: January 18, 2019
 Notification: January 31, 2019

Tutorial/Keynotes proposals

Submission/Proposal deadline: January 18, 2019
 Notification: January 31, 2019

Committees

General co-Chairs

Juan M. Corchado, Salamanca Univ., Spain
 Vijayakumar Varadarajan, Vellor Institute of Technology, India

TPC co-Chair

Nazlena Mohamad Ali, Institute of Visual Informatics, Malaysia
 Mourad Kmimech, ISIMM, Tunisia

Organization chair

Layth Sliman, EFREI, France

New Technologies Track chairs

Valentina Gatteschi, Politecnico di Torino, Italy
 Rizwan Iqbal, Universiti Putra, Malaysia

Mobility/Wireless Track chairs

Karina Sokolova, Paris School of Business, France
 Yessin NEGGAZ, EFREI, France

Security Track chairs

Saliha Artabaz, Ecole Nationale d'Ingenieur, Algeria
 Charles Perez, Paris School of Business, France

Tutorial/Keynote chairs

José Molina, Carlos III de Madrid, Spain

workshop co-Chair

Elyes Ben Hamida, IRT, France
 Rabiah Abdul Kadir, Institute of Visual Informatics, Malaysia

Finance Chair

Ibrahim Hajjeh, Fransec, France

Publicity Chair

Mohamad Badra, Zayed University, UAE

Organizers & Sponsors
